

## Giving Menu

### **Yearly Tuition: \$20,000**

Heartland High School relies on the generosity of donors. Currently, all students attending Heartland receive a partial scholarship to attend. A gift to the Heartland High School Scholarship Fund will ensure all students who need a recovery high school education in Central Ohio can receive one.

### **Recovery Services: \$75,000**

While Heartland students are on their road to recovery, a multitude of recovery services are needed to ensure they achieve their dream of a high school diploma. These services include: an AOD (Alcohol and Other Drugs) Counseling, Recovery Coach, Parent Coach, Experiential Learning Field Trips, Class Speakers, Family Engagement Sessions and other Wrap-Around Services.

### **Multi-Lingual Classes - \$35,000**

Heartland would like to offer multi-language immersion classes. This type of program will not only benefit our current multi-lingual students, but will also give our other students the chance to develop foreign language skills that are essential for our growing global economy.

### **Drug Screening Yearly Cost: \$28,000**

All Heartland students undergo weekly random drug screenings to ensure they continue their recovery plan. Drug screening for each individual student costs Heartland \$1,560 annually.

### **Summer School Classes: \$15,000**

Heartland encourages its students to attend school year-round. Summer School can ensure students achieve their dream of a high school diploma, but also offering them needed wrap-around recovery programs and regular access to our recovery coaches and AOD counselors.

### **Art & Music Enrichment Programming - \$12,500**

Heartland students engage in weekly art and music classes. These virtual and in-person learning modules ignite students' creative passions and teach them new skills. Studies have shown that art and music allow students to have creative expression as they continue to focus on their long-term sobriety.
